## The Annual Quality Assurance Report (AQAR) of the IQAC

All NAAC accredited institutions will submit an annual self-reviewed progress report to NAAC, through its IQAC. The report is to detail the tangible results achieved in key areas, specifically identified by the institutional IQAC at the beginning of the academic year. The AQAR will detail the results of the perspective plan worked out by the IQAC. (Note: The AQAR period would be the Academic Year. For example, July 1, 2012 to June 30, 2013)

## 7.6 Any other relevant information the institution wishes to add. (For example SWOT Analysis)

### Methodology, Analysis of Data, and Inferences Derived

At the institutional level, a combination SWOT analysis and Strategic Planning was carried out with reference to Vision, Mission and Goals of the institute. A group of 10 members which includes faculty and staff of office, Alumni and Parents participated in the process of SWOT analysis, and NAAC Peer team members also have given their own SWOT analysis of the institution in their Report. Based on these, all the plans have been carried out.

First, the core group was addressed by the Principal. He informed that the NAAC has come as a blessing to the Institute and all the staff members should work to bring out an institute specific plan and brace themselves to the task of being pioneers and change agents in remodelling the functioning of the institute. The coordinator later briefed about the components and informed the group to identify the key internal factors (Strengths and Weaknesses) and external factors (Opportunities and Threats) that are important to achieve the objectives. The core group interacted with faculty, alumni, students, parents and they were asked to deliberate on the SWOT analysis in the following thrust areas:

- Improving employability of degree holders
- Increasing learning outcomes of the students

- Implementation of academic and non academic reforms
- Improving interaction with society
- Enhancing research and consultancy services
- Starting PG Programs & Add-on Courses

The group then discussed and distilled their thoughts and prepared the SWOT analysis and plans for Institutional Development Plan.

#### Strategic plan for Institutional Development based on SWOT analysis

With an overwhelming aim and objective to recognize and acknowledge the value addition in transforming the admitted raw students into a capable and skilled ones having sound knowledge and personal competence for ready employability, this Institute has come out with the following strategies to bring changes in its programs based on SWOT analysis.

## Enhancing employability of degree students by incorporating the following enhancements:

Identifying and strengthening soft skills of the students; improving motivation skills, aptitude skills, public speaking skills and, introducing computer training and remedial coaching; introducing innovative research based projects; improving quality of teaching, learning and evaluation processes; faculty development in new and emerging areas; creating advanced laboratories; and enhancing computer and library facilities.

#### Introducing innovations, research and consultancy in education:

Gradually switching over from the current teaching-centric, syllabi/subject-based and examination oriented education method to learner-centric, competency-centric and learning-outcome-based education; faculty development for introducing innovations and research; preparing students to innovate and research at their level; introducing innovative and research oriented projects; and collaborating with other institutions and NGos.

#### **Strengthening learning outcomes of the students:**

Providing support for students through scholarships, cash prizes; implementing academic and non-academic reforms; and planning, organizing and implementing staff development programs to enhance their IT skills, technical skills and soft skills, the college strengthens the learning outcomes.

### **SWOT Analysis**

#### **STRENGTHS**

Quality physical and academic infrastructure.

Committed faculty and administrative staff.

Successful implementation of inclusive policies.

Noticeable social support.

Ragging free and peaceful campus.

Most of the people around this area are farmers, so the institution provides education related to agricultural marketing.

11 sugar industries are situated around our institute.

Visionary management with international stature.

Encouraging students to go for higher education to enhance knowledge, skills and performance.

Financially backward class students will get quality education.

#### WEAKNESSES

Under-utilization of e-learning resources.

Absence of Professional and PG programmes.

Absence of regular application of ICT.

Lack of required stride for research.

Inadequate facility for Career and Placement Guidance Training.

#### **OPPORTUNITIES**

Can be a Model Rural College with proper vision.

Can start PG and Professional Courses.

Need based regional research can be undertaken.

Collaboration with Institutes and other Academic and Research Bodies can be established

Can provide professional consultancy to the region.

#### **THREATS**

Improving the employability of the students.

Poor competency in English and other languages.

Adoption of ICT in all spheres of teaching and learning.

Successful implementation of competitive academic programmes.

Infusion of research culture in the college.

#### FEEDBACK ANALYSIS

#### i. ALUMNI

The feedback from the alumni is not taken in the formal way or in the specific format. There is a provision for representation of alumni in the IQAC. They attend the IQAC meetings and make valuable contribution in the development of the college. They give their feedback in the form of suggestions orally and they also look after whether their suggestions are implemented in due course. They offer their suggestions when they visit the college during different functions and activities. Some of them are in the written form in the visitors' book.

#### ii. PARENTS

Our college has Teacher-Parent Association. During every academic year at least two times we meet each other for discussing the development and progression of their wards. During these meeting they orally give their valuable suggestions for creating a congenial atmosphere in the college. They are invited as guests as audience for many of our college activities. They whole heartedly involve in them and witness the performances of their wards and appreciate the efforts of the teachers. Some of the parents are our alumni also. There is representation in IQAC and they register their suggestion in the IQAC meetings. Some parents have recorded their opinions in the visitors' book.

#### iii. STUDENTS

#### Analysis of student feedback on 'Course'

A feedback was collected from Arts and Commerce students of our college about the UG Programmes with regard to parameters like Learning values, Applicability, depth of the course contents, extent of coverage of course, clarity and relevance of reading materials and extent of efforts required by the students. The same has been analyzed. The observations derived from the feedback are as follows:

- 1. 62% of students from Arts opined that the 'learning values' and the 'applicability of course' are very good which reflects that the course they are pursuing is meeting the needs of current competitive market world and helps a lot to better their position in building their future career. And 93% from Commerce stream are of the opinion that the 'learning values' are really very good and 42% of them opined the 'applicability of course' is to be strengthened.
- 2. On an average of 52% of the respondents from both the streams opined that the depth of the course content is very good. This reveals that nearly the half of the respondents suggested for further deepening of the contents.
- 3. About the 'Extent of coverage of course', 57% of respondents from Commerce are of the very good opinion. On the other hand 53% of respondents from Arts opined that, it is to be improved. 45% of the respondents felt that there must be further improvement in 'coverage'.
- 4. The average of 62% of the respondents opined that the 'Clarity and relevance of the course' is moderate, which reveals that it is to be revised.
- 5. 'Extent of effort required by student', 57% of the respondents from Arts and 34% from Commerce opined that efforts required by students are moderate. This opinion reveals that there must be further infusion of motivational factors so as to generate interest in the course they are pursuing.

## Analysis of student feedback on 'Campus Experience'

The feedback from students was collected in the specific, structured format on their 'Campus Experience'. There were ten parameters on which the students have given their opinions. Nearly 70% of the students opined the infrastructure

like ICT classrooms, Library & e-library services, all the labs, computers and net facility and other sports facilities are excellent. 68% are of the opinion that the overall campus is excellent and learners' friendly. A very few students have expressed their views on greenery to be improved. Most of the students liked the working of the labs by saying 'good' about them.

## Analysis of student feedback on 'Teachers'

A structured format was prepared and administered on the students for getting feedback on the teachers with parameters like regularity in conducting classes, subject preparation, presentation skills, methodology used in teaching, interaction with students, use of ICT devices, convincing way and the bowing effect.

Out of 208 students, 85% of students gave full marks to all the teachers for their punctuality, subject knowledge, presentation skills and methodology used in imparting the knowledge. About 15% opined that teachers are good and satisfactory in the above mentioned qualities.

67% of students suggested for use of appropriate teaching aids. They feel that ICT enabled teaching is more impressive than chalk and talk method. 73% students are impressive on the matter that they can interact with 90% of the teachers off the classrooms. Most of the students suggest that just 3 to 4 % of teachers are not effective in convincing the depth of the course content even after their conscious efforts.

Students opined that 90% of the teachers are particular in completing the syllabi in time. They put more efforts than others to use relevant examples to suffice the subject matter. 97% of teachers are really mentors and they create curiosity in the subject as well as learning.

The above given analysis is purely based on the feedback of students. Though the students have expressed good opinion about their teachers, we are aware that we must always update and upgrade our knowledge to be in the best position in the opinion of student community as well as the society.

## **BEST PRACTICES**

## i. CONSTELLATION OF RCU RANK HOLDERS

#### Goals

- \* To provide the students the best role models of their territory
- \* To make the students to involve in the interaction with immediate rank holders of their university

#### Context

In this knowledge era, the rural students lag behind in competing with the students of advanced colleges and in the global market of employment. They feel denied of better learning conditions in the rural areas. They usually hail from rural background. They are weak in communication skills. They hesitate to come forward with their meek abilities. They hope eagerly to learn more and stand beside the successful fellow learners. They found one of their senior from this college stood third to the university. Hence, they too wish for the opportunity to get through with better results. They wanted to meet all the RANK HOLDERS from Arts & Commerce stream and wished to interact with them to be equipped with tact and techniques of facing the exams in a better way. So, the college, with the consent of the student parliament, started this practice from this year in anticipation of better results in forth coming days.

## **Objectives**

- \* To ignite the young talents to achieve excellence in their studies
- \* To provide a platform to interact with the achievers
- \* To felicitate the RANK HOLDERS for their excellent performance
- \* To bring about radical changes in teaching-learning process
- \* To get the feedback from the RANK HOLDERS

#### The Practice

Since the inception of the college, for the first time, our college got the 7<sup>th</sup> Rank in BA in the year 2006 for the Karnatak University, Dharwad. The name of the student is Miss A. S. Karigar. She scored 1265 out of 1500. (84.33%). It was a boosting thing for all the teachers and students then. It was the 'Dreams Come True' time. It was the result of twenty years dedicated service of the faculty. Since then, the faculty was consistently guiding the students in that direction. After a long period of seven years, in 2013, again our student Mr. Ramesh Harakangi got the third rank in BA with Gold Medal in Kannada core subject. He scored 94.18%. It was the incremental growth and is the result of advanced facilities in all the spheres of the college. This created awareness among the students. He ignited the fellow students of the college.

The event made the faculty as well as students to think of inviting all the RANK HOLDERS in Arts & Commerce, of the Rani Channamma University, to inspire the young talents of our college to achieve excellence in their studies by providing a platform to interact with the students. At the same time, the college felicitated those RANK HOLDERS for their excellent performance. This definitely will bring a radical change in the teaching and learning process in the forth coming days. The result of this is seen in the day-to-day student behavioural patterns. This practice will help the students in future also. It also provided us to get the feedback from the RANK HOLDERS.

## **Obstacles:**

- \* Contacting and convincing the Rank Holders
- \* Travelling distance: because their study places are at different places
- \* Mobilizing the resource

### Strategies adopted to overcome the obstacles

- \* When planned to conduct the constellation, contacting and convincing the rank holders and the authorities to relieve them to attend the same was very difficult. Luckily our alumni Mr.Ramesh Harakangi took all the strain so as to collect the phone numbers, and contacted them, convinced and made them available to the function.
- \* Most of them are studying at different places. They are provided with TA, DA and Honorarium by the college and also provided the vehicle to travel along with their parents. So, they attended the function and involved actively in the interaction.
- \* The management has given the approval for financial assistance. The expenditure was meted out of the college funds.
- \* The function was a grand success.

## Impact of the practice

The present students are convinced that there is no substitute for the smart work. This programme brought about attitudinal changes in the students' way of thinking. Then onwards, it is observed that the reading habits of the students enhanced to a greater extent and the librarian is of the opinion that students are asking for various reference books. Questioning pattern at classroom has been found distinct from previous experiences. The behavioral patterns of the students changed at once and most of the students are now result oriented. The immediate impact of the programme has been recorded from the results of the odd semester exams. The practice has ignited the innate urge of the students. The college administration has decided to continue the practice which will definitely give an opportunity to secure more ranks in the forth coming days.

## **Resources required**

To continue the practice in the coming days also, the college needs funds. We hope sponsors will provide the resources required.

#### ii. FELICITATION FOR OUTSTANDING PERFORMANCE

## Goals

- \* To recognize the outstanding performance of students & teachers
- \* To motivate students to achieve excellence in curricular and extra-curricular Activities
- \* To engage teachers to guide students for excellent performance

#### Context

This activity has been introduced in our college long back in 2003. Then it was just an event to appreciate the students who score 90 and more marks in individual subjects in the university exams. At the initial stage the number of students was meagre, to say, it was not more than 5. When the other students witness the felicitation of such outstanding performers in academic, sports and cultural activities, they felt extremely hopeful of achieving the same. They are motivated by the few and the number grew more than 100 in just five years. Then the cut-off standard was enhanced to 95 marks. Even this was not impossible for our students. Now the number of students scoring more than 95 marks is crossed 50. With this, even the teachers who guided them are also felicitated. So this activity has become the best practice of our college.

#### **Objectives**

- \* To motivate the students & teachers to excel in their fields
- \* To recognize the service of the dedicated teachers
- \* To felicitate the students for their excellent performance
- \* To bring about changes in the learning process

## The Practice

This best practice has created an urge in the students to perform well in their curricular and extra-curricular activities. This has given a chance to our college for the first time to got the 7<sup>th</sup> Rank in BA in the year 2006 for the

Karnatak University, Dharwad. It was a booster for all the teachers and students. Since then, the practice was made the hall mark of our institution; faculty was consistently guiding the students in that direction. Four of the faculty sincerely guided the students to excel in their performance at Economics, Corporate Accounting-I, Cost Accounting-I and sports. In each subject more than 20 students scored 90 and above, 03 students scored 100 out of 100 and 06 students have recognized as university blues. So, along with the students, teachers also have been felicitated with "Letter of Appreciation" from the college.

#### **Obstacles**

- \* Identifying the parameters for the excellent performance
- \* Large number of students
- \* Fixing the cut-off standard
- \* Mobilizing the resource

## Strategies adopted to overcome the obstacles

- \* Since all the students are engaged in different activities like inter-collegiate competitions, sports and cultural events, most of them achieve success. So, the expert committee of our college developed the parameters to identify the excellent performer.
- \* When the number of achievers exceeded more than 100, the standard was set to 95 marks.
- \* Resources like funds for cash prizes and funds for providing those students with certificates and shawls/bouquets & mementos was mobilised from alumni, faculty and out of college funds.

## Impact of the practice

This practice has changed the attitudes of the students. The students developed reading habits. They have become more conscious and studious. The immediate impact of the practice was that three students have scored 100

marks in individual subjects. One student has scored more than 90 in all the seven subjects and he stood third to the RCU in the final exams.

In 2013, Mr. Ramesh Harakangi got the third rank in BA with Gold Medal in Kannada core subject. He scored 94.18%. It was the incremental growth and is the result of advanced facilities in all the spheres of the college and such practices. This created awareness among the students. He ignited the fellow students of the college. Miss Shilpa Chamakeri, Miss Shashirekha Vernekar have scored 100 in Cost Accounting – I and Miss Veena P. Jamakhandi has scored 100 in Corporate Accounting – I. Till date 85 students have been recognized as Blues in various sports event by the university.

## **Resources required**

Our college is practising this activity since 2003. It requires lot of efforts from both the students and the teachers. For scoring high marks students need to attend extra marathon work in their fields. It needed extra coaching. Hence, the college arranged for special lecture series, student exchange programmes, field visits, study tours, research reports and competitions. This requires much fund for honorarium and TA/DA for trainers and experts. It also requires quality infrastructures. The available infrastructure in the college is upgraded.
